Summary

GenAI Engineer with 5.6 years of experience in LLM applications and retrieval systems.

Experience

GenAI Engineer | Lotusgrid Fintech | Sep 2024 - Present

- Wrote Python prompt templates and few-shot prompting guidelines adopted by four teams
- Integrated pgvector into the existing PostgreSQL database to add semantic search over 500K product descriptions

Tech stack: Python, pgvector, PyTorch, AWS

AI Engineer | Saffronlane Payments | May 2023 - Aug 2024

- Fine-tuned a small open model with LoRA for ticket classification, reaching 92% F1
- Designed a Qdrant vector store for 2M document chunks with metadata filtering and nightly re-indexing

Tech stack: Qdrant, Hugging Face, Docker, FastAPI

Applied AI Engineer | Peregrine Ledger Labs | Feb 2021 - Apr 2023

- Built an evaluation harness tracking hallucination rate and retrieval recall for every prompt change
- Implemented hybrid search (BM25 + embeddings) with a cross-encoder reranker, improving answer accuracy from 71% to 88% on an internal eval set

Tech stack: FastAPI, Qdrant

Skills

Prompt Engineering, Deep Learning, MLOps, Machine Learning, NLP, Vector Databases, Artificial Intelligence, Python, Docker, LLM

Education

MCA | Northgate College of Engineering | 2021
